REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claim 1 has been found to be allowable over the Prior Art of record because the Prior Art of record fails to teach or suggest a semiconductor detecting circuit comprising a voltage dividing circuit that outputs divided voltages, corresponding to the output voltage of the first semiconductor temperature sensor divided by a plurality of predetermined ratios, that are successively provided to the first input of the comparator to compare with the output voltage of the second semiconductor temperature sensor, in combination with the remaining limitations of said claim.

Claim 2 have been found to be allowable over the Prior Art of record due to their dependence upon claim 1.

Claim 8 has been found to be allowable over the Prior Art of record because the Prior Art of record fails to teach or suggest a method of detecting temperature by a semiconductor device comprising the step of dividing the output voltage of first semiconductor temperature sensor by a plurality of predetermined ratios and successively constituting the first input of the comparator by the plurality of divided voltages to compare with the second input, corresponding to the output voltage of the second semiconductor temperature sensor, in combination with the remaining limitations of said claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
